We are Prepared... Don't Panic Please have patience with us.

As you have noticed we have suspended all non-essential entrance of people into our patient care areas. We understand this is hard to not be able to freely visit your loved ones. We are following CDC recommendations and understand the threat of the COVID 19 virus to the residents in our building. We appreciate your help in helping us protect them.

Facts you should know:

- A person can be contagious before they show symptoms
- Some people can have the illness without showing symptoms ever and they can spread it to others.
- Mortality rate for ages 0-40 is 0.2% (2 people out of every 1,000)
- Mortality rate for ages 40 - 60 < 1.3 % (1 person out of 100)
- **Mortality rate for over 80 yrs is 22% - 34% (22-34 out of 100)**
(it is crucial to protect our buildings from exposure)

Follow good health habits:

- cover your cough or sneeze with tissue or sleeve
- avoid touching your eyes, nose and mouth
- wash your hands often
- stay home if you are not feeling well.

If you would like general information via email updates; please email:
